

## What is B.COMP?

The B.COMP project aims to create more inclusive work-based learning (WBL) environments, using digital tools and innovative methodologies to improve the work readiness skills of lower-skilled learners.

## Key Results of the B.COMP Project

### e-Learning Platform

This online platform is designed to provide VET teachers and in-company trainers with access to innovative educational resources to enhance their ability to support low-skilled learners. It includes interactive modules covering key topics such as soft skills, time management and problem solving, essential for success in work environments. The platform is accessible in several languages and is available free of charge to all users.

### Interactive WebApp

An intuitive mobile application that allows learners to practice their Work Readiness Skills (WRS) in an autonomous and personalised way. It offers a series of practical activities based on day-to-day situations in the workplace, helping users to develop competencies such as teamwork, decision-making and conflict resolution. The app is designed to be accessible and easy to use, available to both trainers and trainees.

### Customised Online Training Modules

B.COMP has created a series of online training modules, designed specifically for trainers and coaches in companies. These modules focus on how to implement transformative learning in work-based training programmes. The modules address topics such as social inclusion and the use of digital technologies to enhance the teaching and learning process, with a practical and learner-centred approach.

# B.COMP

Creating more inclusive and supportive WBL environments

### Join the Change with B.COMP!

Are you part of the education or vocational training world? Do you want to improve opportunities for low-skilled learners? B.COMP is the answer! We invite you to explore our innovative digital tools that transform work-based learning. Trainers and learners can now access our platform, improve their work-readiness skills, and discover new inclusive methods that ensure professional success.

- ◆ e-Learning Platform: Packed with free, interactive resources, designed to help trainers and learners develop work skills autonomously.
- ◆ Interactive WebApp: An easy-to-use app that allows you to practise and improve key skills anytime, anywhere. All from your mobile!

Get Involved and Share!

We not only invite you to use our tools, but also to share them. We want more people to benefit from the work we have done, creating more inclusive and accessible learning environments. Share the project with your network and help us spread the word.
